**Please find below and/or attached an Office communication concerning this application or proceeding.**

The time period for reply, if any, is set in the attached communication.

<b>Office Action Summary</b>	<b>Application No.</b> 10/710,276	<b>Applicant(s)</b> RADU ET AL.	
	<b>Examiner</b> Gregory J. Strimbu	<b>Art Unit</b> 3634	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

***Drawings***

The drawing correction filed April 4, 2007 has been approved.

***Claim Rejections - 35 USC § 103***

Claims 1-3, 5 and 6 are rejected under 35 U.S.C. 103(a) as being unpatentable over Samways et al. (US 6571515) in view of Youngs et al. (US 6892496). Samways et al. discloses a vehicle door assembly for a motor vehicle, comprising: a door frame 2; a carrier plate 1; a door component F; and a plurality of fasteners 16 securing the door component F to the carrier plate 1 as shown in figure 2, said fasteners 16 further securing the door component F and said carrier plate 1 to the door frame 2, and said fasteners 16 supporting said door component F on said carrier plate 1 before said carrier plate is positioned on said door frame; the door component F comprises a window regulator rail 6; said door frame 2 supports more than 50 percent of the weight of said door component since the door component is only attached to the door frame 2; a sealable opening 29. Samways et al. is silent concerning a door trim panel and polypropylene carrier plate.

However, Youngs et al. discloses a vehicle door assembly comprising a door frame 12, a door trim panel 18 secured removably to said door frame, and a polypropylene carrier plate 16 positioned between said door frame and said door trim panel.

It would have been obvious to one of ordinary skill in the art to provide Samways et al. with a trim panel and a polypropylene construction, as taught by Youngs et al., to

Art Unit: 3634

improve the appearance of the vehicle door as viewed from the interior of the vehicle and to reduce the weight of the door.

### ***Response to Arguments***

Applicant's arguments filed October 1, 2008 have been fully considered but they are not persuasive.

The applicant argues that Samways et al. fails to disclose fasteners that support the door component on the carrier plate before the carrier plate is positioned between the door frame and the door trim panel. This is not persuasive because the fasteners 16 clearly support the door component F on the carrier plate as shown in figure 3. Since the door trim panel has not yet been attached to the door frame in figure 3, the carrier plate supports the door component F before the carrier plate 1 is positioned between the door frame and the door trim panel.

### ***Conclusion***

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any

Art Unit: 3634

extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
